Overview

HPE OfficeConnect 1820 Switch Series

Models

J9979A
J9982A
J9980A
J9983A
J9981A
J9984A

Key features

- Customized operation using intuitive Web interface
- Flexible deployment options including wall, under table and desktop mounting
- 24- and 48 port models include SFP ports
- 8-, 24- and 48 port non-PoE+ models are fanless for quiet operation
- Limited lifetime Warranty

Overview

Product overview

HPE OfficeConnect 1820 Switch Series devices are basic, smart-managed, fixed-configuration Gigabit Ethernet Layer 2 switches designed for small businesses looking for key features in an easy-to-administer solution. The series is part of the OfficeConnect portfolio of Hewlett Packard Enterprise small business networking products.

The series consists of six switches including 8-, 24- and 48-port Gigabit Ethernet switches and 8-, 24-, and 48-port Gigabit PoE+ models each providing non-blocking Gigabit per port performance. Some models include SFP ports for fiber connectivity and the 8-, 24-, and 48-port non PoE+ models are fanless, making them ideal for office deployments. All HPE OfficeConnect 1820 Switches support flexible installation options, including mounting on wall, under table, or on desktop. The 8-port Gigabit Ethernet model can be powered by an upstream Power over Ethernet (PoE) switch for environments where no line power is available.

These Gigabit switches are plug-and-play out of the box, yet network operation can be fine-tuned through features available from a simple Web browser-based GUI, if necessary. Customizable features include VLANs, Rapid Spanning Tree, IGMP Snooping, link aggregation trunking, and DSCP QoS policies. All models include the latest energy-saving capabilities, including Energy Efficient Ethernet (EEE) and idle-port power down. HPE OfficeConnect 1820 Switch Series is covered by a Limited Lifetime Warranty.

Features and Benefits

Management

Simple Web management

Allows for easy management of the switch-even by nontechnical users-through an intuitive Web GUI; supports HTTP and HTTP Secure (HTTPS).

• SNMPv1, v2c

Enables devices to be discovered and monitored from an SNMP management station.

- **Port mirroring** Enables traffic on a port to be simultaneously sent to a network analyzer for monitoring.
- Dual flash images
 Provides independent primary and
- Provides independent primary and secondary operating system files for backup while upgrading.
 Network Time Protocol (NTP) Synchronizes timekeeping among distributed time servers and clients; keeps timekeeping consistent among all clock-dependent devices within the network.
- Manual network time configuration
 Manually set the date and time on the switch in the absence of an NTP server.
- Default DHCP client mode

Allows the switch to be directly connected to a network, enabling plug-and-play operation; in absence of a DHCP server on the network, the switch falls back to a default, fixed IP address.

Quality of Service (QoS)

• Traffic prioritization

Provides time-sensitive packets (like VoIP and video) with priority over other traffic based on DSCP or IEEE 802.1p classification; packets are mapped to eight hardware queues for more effective throughput.

Broadcast control

Allows limiting of broadcast traffic rate to reduce unwanted network broadcast traffic.

• IEEE 802.1p/Q

Delivers data to devices based on the priority and type of traffic; supports IEEE 802.1Q.

Connectivity

Auto-MDI/MDIX

Automatically adjusts for straight-through or crossover cables on all ports.

IEEE 802.3X flow control

Overview

Provides a flow throttling mechanism propagated through the network to prevent packet loss at a congested node.

Loop protection

If the switch detects a loop, it disables the source port from forwarding data packets originating from the switch to avoid broadcast storms.

• SFP ports for fiber connectivity Provides fiber connections for uplinks and other connections across longer distances than copper cabling can support; SFP ports are in addition to available copper Ethernet ports, providing a higher total number of available ports. SFP ports available on 24- and 48 port models.

• IEEE 802.3af PoE-powered device option

Obtains power provided by a standard PoE device connected to Port 1; deploy the switch wherever an Ethernet cable can reach as a power outlet is not needed (8-port GbE non-PoE+ model only).

• IEEE 802.3at Power over Ethernet (PoE+)

Provides up to 30W per port, which allows support of the latest PoE+-capable devices such as IP phones, wireless access points, and security cameras, as well as any IEEE 802.3af-compliant end device; lowers the cost of additional electrical cabling and circuits that would otherwise be necessary in IP phone and WLAN deployments.

• PoE+ port availability

Ports 1-4 provide PoE+ on the HPE 1820-8G-PoE+ (65W) switch. Ports 1 - 12 provide PoE+ on the HPE 1820-24G-PoE+ (180W) switch. Ports 1-24 provide PoE+ on the HPE 1820-48G-PoE+ (370W) switch.

Auto PoE power configuration

The switch automatically assigns the required power to a port for a PD device based on LLDP (Link Layer Discovery Protocol). Optionally, the switch permits manual, per port, PoE power configuration.

• PoE shut down mode

A PoE scheduler provides the ability to define the hours of PoE power being supplied on a group of switch ports based on a 24 hour day. The scheduler enables the flexibility to select individual days of a week as well as reoccurrence on a weekly basis with a start and end date.

• Energy Efficient Ethernet

Compliant with IEEE 802.3az standard requirements to save energy during periods of low data activity.

• Auto port shut-down

The switch saves power by automatically shutting down power to inactive ports. Power is restored on a port upon link detection.

• Energy savings status

The switch provides an estimated cumulative energy savings due to green Ethernet features enabled.

Security

• Secure Sockets Layer (SSL)

Encrypts all HTTP traffic, allowing secure access to the browser-based management GUI in the switch.

Automatic denial-of-service protection

Monitors nine types of malicious attacks and protects the network by blocking these attacks.

• Management password Provides security so that only authorized access to the Web browser interface is allowed.

Performance

- Half-/full-duplex auto-negotiating capability on every port Doubles the throughput of every port.
- IGMP snooping Improves network performance through multicast filtering, instead of flooding traffic to all ports.

Layer 2 switching

• VLAN support and tagging

Overview

Supports up to 64 port-based VLANs and dynamic configuration of IEEE 802.1Q VLAN tagging, providing security between workgroups.

• Jumbo packet support Improves the performance of large data transfers; supports frame size of up to 9220 bytes.

Resiliency and high availability

• IEEE 802.1D Spanning Tree Protocol (STP) and IEEE 802.1W Rapid Spanning Tree Protocol (RSTP)

Provides redundant links while preventing network loops.

Link aggregation

Brings together groups of ports automatically using Link Aggregation Control Protocol (LACP) or, manually, to form an ultra-high-bandwidth connection to the network backbone; helps prevent traffic bottlenecks; the 8 port models support 4 trunks, the 24-port models support 8 trunks and the 48-port models support 16 trunks. The 8- and 24-port switches can support up to 4 ports per trunk, the 48-port switches can support up to 8 ports per trunk.

Ease of use

Locator LED

Allows users to set the locator LED on a specific switch to either turn on, blink, or turn off; simplifies troubleshooting by making it easy to locate a particular switch within a rack of similar switches.

Comprehensive LED display with per-port indicators

Provides an at-a-glance view of status, activity, speed, and full-duplex operation.

Flexibility

• Flexible installation

Allows mounting on wall, desktop, or under-table with supplied hardware.

Rack mountable

All models include rack-mounting hardware for mounting in a standard 19 inch telco rack.

Kensington lock slot

Allows switches to be physically secured in open-space deployments (8-, and 24 port models).

Warranty and support

• Limited Lifetime Warranty

See www.hpe.com/officeconnect/support for warranty and support information included with your product purchase.

Configuration

Build To Order:

BTO is a standalone unit with no integration. BTO products ship standalone are not part of a CTO or Rack-Shippable solution.

Internal Power Supplies

Power supplies included

Remarks:

Drop down under power supply should offer the following options and results: Switch/Router/Power Supply to PDU Power Cord - #B2B in North America, Mexico, Taiwan, and Japan or #B2C ROW. (Watson Default B2B or B2C for Rack Level CTO) Switch/Router/Power Supply to Wall Power Cord - Localized Option (Watson Default for BTO and Box Level CTO) High Volt Switch/Router/Power Supply to Wall Power Cord - #B2E Option. (Offered only in North America, Mexico, Taiwan, and Japan)

Switch Enclosure Options

Rack Mount Kit

HPE X410 1U Universal 4-post Rackmount Kit

• Supported on J9980A, J9981A, J9983A, J9984A

J9583A See Configuration NOTE:1

Configuration Rules:

Note 1 If this Mounting Kit is order with #0D1 then it integrates to the HPE Network Rack. (not the switch)

Technical Specifications

HPE OfficeConnect 1820 8G Switch (J9979A)

I/O ports and slots	8 RJ-45 autosensing 10/100/1000 ports (IEEE 802.3 Type 10BASE-T, IEEE 802.3u Type 100BASE-TX, IEEE 802.3ab Type 1000BASE-T); Duplex: 10BASE- T/100BASE-TX: half or full; 1000BASE-T: full only		
	Supports a maximum of	8 autosensing 10/100/1000 ports	
Physical characteristics	Dimensions	10(w) x 6.28(d) x 1.73(h) in (25.4 x 15.95 x 4.39 cm) (1U height)	
	Weight	1.81 lb (0.82 kg)	
Memory and processor	ARM Cortex-A9 @ 400 M flash	MHz, 128 MB SDRAM; Packet buffer size: 1.5 MB, 16 MB	
Performance	100 Mb Latency	< 7 µs (LIFO 64-byte packets)	
	1000 Mb Latency	< 2.4 µs (LIFO 64-byte packets)	
	Throughput	up to 11.9 Mpps (64-byte packets)	
	Switching capacity	16 Gbps	
	MAC address table size	8000 entries	
Reliability	MTBF (years)	144.93	
Environment	Operating temperature	32°F to 104°F (0°C to 40°C)	
	Operating relative humidity	15% to 95% @ 104°F (40°C)	
	Nonoperating/Storage temperature	e -40°F to 158°F (-40°C to 70°C)	
	Nonoperating/Storage relative humidity	e 15% to 95% @ 140°F (60°C)	
	Altitude	up to 9,842 ft (3 km)	
	Acoustic	Power: 0 dB no fan	
Electrical	Frequency	50/60 Hz	
characteristics	AC Voltage	100 - 240 VAC	
	Current	. 2 A	
	Maximum power rating	12.2 W	
	Idle power	10.2 W	
	PoE power		
	Notes	Idle power is the actual power consumption of the device with no ports connected. Maximum power rating and maximum heat dissipation are the worst-case theoretical maximum numbers provided for planning the infrastructure with fully loaded PoE (if equipped), 100% traffic, all ports plugged in, and all modules populated.	
Safety	UL 60950-1; EN 60825; IEC 60950-1; EN 60950-1; CAN/CSA-C22.2 No. 60950-1

response times in your area, please contact your local Hewlett Packard Enterprise sales office.

HPE OfficeConnect 1820 24G PoE+ (185W) Switch (J9983A)			
I/O ports and slots	12 RJ-45 autosensing 10/100/1000 PoE+ ports; Duplex: 10BASE-T/100BASE-TX: half or full; 1000BASE-T: full only		
	12 RJ-45 autosensing 10/100/1000 ports (IEEE 802.3 Type 10BASE-T, IEEE 802.3u Type 100BASE-TX, IEEE 802.3ab Type 1000BASE-T);		
	Duplex: 10BASE-T/100BASE-TX: half or full; 1000BASE-T: full only		
	2 SFP 100/1000 Mbps ports (IEEE 802.3z Type 1000BASE-X, IEEE 802.3u Type 100BASE-FX)		
	Supports a maximum of 24 autosensing 10/100/1000 ports plus 2 SFP 100/1000 slots		
Physical characteristics	Dimensions	17.42(w) x 9.69(d) x 1.73(h) in (44.25 x 24.61 x 4.39 cm) (1U height)	
	Weight	7.3 lb (3.31 kg)	
Memory and processor	ARM Cortex-A9 @ 400 I flash	MHz, 128 MB SDRAM; Packet buffer size: 1.5 MB, 16 MB	
Performance	100 Mb Latency	< 7 µs (LIFO 64-byte packets)	
	1000 Mb Latency	< 2 µs (LIFO 64-byte packets)	
	Throughput	up to 38.6 Mpps (64-byte packets)	
	Switching capacity	52 Gbps	
	MAC address table size	8000 entries	
Reliability	MTBF (years)	64.52	
Environment	Operating temperature	32°F to 104°F (0°C to 40°C)	
	Operating relative humidity	15% to 95% @ 104°F (40°C)	
	Nonoperating/Storage temperature	e -40°F to 158°F (-40°C to 70°C)	
	Nonoperating/Storage relative humidity	e 15% to 95% @ 140°F (60°C)	
	Altitude	up to 9,842 ft (3 km)	
	Acoustic	Power: 36 dB	
Electrical	Frequency	50/60 Hz	
characteristics	Voltage	100 - 127 / 200 - 240 VAC, rated (depending on power supply chosen)	
	Current	2.6/1.3 A	
	Maximum power rating	240 W	
	Idle power	28.3 W	
	PoE power	185 W PoE+	
	Notes	Idle power is the actual power consumption of the device with no ports connected. Maximum power rating and maximum heat dissipation are	

Technical Specificati	ons	
		the worst-case theoretical maximum numbers provided for planning the infrastructure with fully loaded PoE (if equipped), 100% traffic, all ports plugged in, and all modules populated. PoE Power is the power supplied by the internal power supply, it is dependent on the type and quantity of power supplies and may be supplemented with the use of an External Power Supply (EPS).

Summary of Changes

Date	Version History	Action	Description of Change:
07-May-2018	Version 6	Changed	Accessories and Technical Specifications updated
04-Sep-2017	Version 5	Changed	Updates made on Features and benefits
06-May-2016	Version 4	Changed	Document name changed to HPE OfficeConnect 1820 Switch Series. Overview, Features and Benefits, Technical Specifications updated.
22-Apr-2016	Version 3	Changed	SKU descriptions updated on all document
01-Dec-2015	Version 2	Changed	Overview, Features and Benefits and Technical Specifications updated
30-Mar-2015	Version 1	Created	Document creation
